

CMM PROGRAMMER

J&E Precision Tool, Inc has an immediate opening for an experienced CMM Programmer to develop, maintain, and generate CMM programs to inspect and verify production materials and components. This position will be for programming first piece, in-process and final programs using the latest PC-DMIS software. This is for bridge CMM's with the opportunity to learn/program our Absolute arm with laser scanning capabilities. We are a rapidly growing, registered ISO9001/AS9100, locally owned and managed shop who is looking for someone like you.

We offer a competitive salary and benefits package (Medical Insurance, Dental Insurance, 401k plan) based upon experience. – Come join our team by applying in person at J&E Precision Tool, Inc, 107 Valley Road, Southampton, MA 01073.
